Go Flow

- Profero, Inc. can help you increase productivity, throughput, reduce bottlenecks and achieve maximum efficiency through improved workflow by developing a streamlined new layout.
- Profero can provide a road map for efficient use of valuable floor-space.
- Profero staff can provide various scenarios that allow a company the ability to explore different options. This permits the client to partner with Profero in implementing the project tasks and in project management, while decisions are maintained within the company.

Streamline your workflow and reduce waste

The Goal is Flow

Profero's Layout Assistance

- Analyzing and documenting layout and process flow
- Determining bottleneck areas
- Time and motion studies
- Capacity studies
- Line balancing application
- Measuring equipment footprints
- Developing alternate scenarios for client review
- Analyzing the different scenarios with client and the project team
- Cost-benefit analysis
- Equipment justification
- Revisions to layout for continuous improvement
- Paper and electronic AutoCAD drawings
- Project management through implementation
- Evaluation for cellular manufacturing or pull production

Profero's plant layout experts can help you get the most out of your current floor space, new, or expanded work areas.
